

“Member initiated Taskforces & Projects”

P R O J E C T S of Géraldine Crevat - 2016

(each Project can get changed in a Taskforce
if one or more members get registered)

Action plans

PROJECT : International Mobility

Especially young women move to countries or follow their husbands without knowing the laws in the different countries which can become very important for them. E.g. regarding recognition of diplomas, law of divorce and residence after divorce or questions about health insurance.

The chair of the project “International Mobility”

- collects information about international mobility and counsels members.

TASK FORCE : Knowing BPW (Structure, opportunities, events)

Online meetings and contacts with members all over the world showed that many members have very poor knowledge about BPW and all the opportunities the organization offers to its members

- organizes online meetings on important topics in order to present different countries where BPW is set up and to give the floor to an active BPW member to present her BPW's country and own concerns.
- In online meetings BPW expert present BPW opportunities and answers questions.
- Members who are **willing to found a club in a country with no BPW Federation** can get the information requested and the necessary contacts.
- Members who participate at online meetings have to be or to become members of a local Club.

PROJECT : Online Meetings

Online meetings are a crucial tool for the future of BPW.

- The project chair shares the experience of BPW Nice intercontinental and collects all kind of know-how, technical aspects as well as issues of application and counsils members.
- At the moment online meetings on different topics will be the main focus but in future BPW International together with Federations has to think about “Online Clubs” as no successful organization will be able to ignore the opportunities of the new digital age.

PROJECT : Young BPW and international mobility

The topic international mobility showed that many young BPW travel a lot, are busy with their young children and have hardly time to attend the traditional club meetings. The opportunity of online meetings would be crucial for them.

Therefore the **project will support the Young BPW Chairs** in organizing online meetings in addition to the local meetings.

- Online meetings give Young BPW the opportunity to get informed by about topics which are especially interesting for young women - Closed connexion with task force "Knowing BPW".
- Support to students for BPW partnership with universities. For example, a BPW nice INTERCONTINENTAL's member is trying to make known BPW in Mc Gill campus (Canada). For that, she needs connexions and support. The chair of the project "Young BPW and international mobility" would be able to centralize all the informations she needs.
